

February 4, 2009

My name is Nate Drennan, and I came to Two Eagle River School my freshman year. I am now a senior, 18 years old. What I like about TERS is that the teachers are persistent about students going to college. Also, school work is fit for individual students, who can even take college classes. The teachers are also relatable in tough situations. We get to go on school trips that are fun and educational as well.

Before I came here, I attended Ronan school for 8th grade, and I went to middle school in Butte. The teachers were nice and I had great principals, but Two Eagle has changed my life. It has also changed my outlook on life. Before Two Eagle, I was in trouble and needed help. Now, I am a starter for varsity basketball. I am also Vice President for Two Eagle Student Council. Two Eagle was the place that made it possible.
